

MATTIA MORBELLO

- » Status: Phd in Mathematics
- » Website: mattiamorbello.github.io
- » Languages: Italian, French (DALF C2), English (Cambridge C1), Spanish (A2)
- » Interests: Complex Geometry, Irregular Connections, Moduli Spaces, Painlevé equations, Singular Foliations

»»» EDUCATION

2023 - 2026	PhD - Université de Rennes, France	
	» Research project: Modular Groupoid, irregular connections, and dynamics » Supervisor: Prof. Frank Loray	
2022 - 2023	Master 2 - Université de Rennes, France	16.75/20
	» Fundamental mathematics - Algebra and Geometry » Thesis title: Character Varieties, the 4-Punctured Sphere, and Symplectic Structures » Supervisor: Prof. Frank Loray	
2019 - 2022	Laurea Magistrale (Master) - Università di Torino, Italy	110/110 cum laude
	» Thesis title: Complex Geometry through the Eyes of a Torus » Supervisor: Prof. Tommaso Pacini	
2016 - 2019	Laurea Triennale (Bachelor), Università di Torino, Italy	102/110
	» Thesis title: The hyperbolic half-plane and the Uniformisation Theorem » Supervisor: Prof. Anna Maria Fino	

»»» SCHOLARSHIPS AND FOUNDINGS

2024 - 2025	PhD outgoing mobility - Collège doctoral de Bretagne - 1.600€.	
	Funding of a two months stay in Rio de Janeiro for a scientific collaboration at IMPA and UFF with J. V. Pereira and G. Calsamiglia	
2022 - 2023	M2 Scholarship - CHL - Université de Rennes 1 - 10.000€.	
	Scholarship for the M2 maths fondamentales at Rennes University.	

»»» SUMMER/WINTER SCHOOLS

- » Dijon - *Algebraic Geometry and Physics* - August 2023
- » Anger - *Métriques kählériennes et les équations de Monge-Ampère* - December 2022

»»» VISITING EXPERIENCES

4-8 May 2026 **Visiting PhD student - IRMA - Strasbourg**

I worked with [M. Porta](#) and [V. Heu](#) on the compactification of the moduli space of rational irregular curves.

May-June '25 **Visiting PhD student - IMPA - Rio de Janeiro**

Under the supervision of [J. V. Pereira](#) and [G. Calsamiglia](#) I had the opportunity to present my work and improve my knowledge about singular foliations, stable curves, and MMP.
